> PROBABLE ESTABLISHMENT OF THE MEXICAN EMPIRE.-We extract the following from the New Orleans Bee :

" Intelligent observers who understand the character of Santa Anna, inform us that no doubt whatever exists of his design to assume imperial dignity as soon as he can collect the necessary funds and organize a sufficient force to overcome resistance. We have good authority for affirming that Senor Atecha, who arrived here by the Texas, and left on Sunday for Washington, is charged with an important mission to Almonte, the Mexican minister, the purport of which is that he is to spare no effort to secure the early ratification of the Gadsden treaty, and that for this purpose he is vested with full authority to agree to any modisame for a term of years from the 1st of January next. fications that may be proposed, without losing time to consult the home government. Should the treaty pass the Senate, Almoute is required by situated, rendering it a desirable house for traveilers | immediately to transmit one million of dollars of the amount to be paid by the United States to Senor Rafael Ratael, Mexican consul at New York, who, supplied with this large sum, will embark forthwith for Spain. His mission will be J. WISE & BROTHER, Manufacturers of Boudoir to engage a competent staff of experienced offi-Grand and Square PIANOS. Those wishing a cers for the Mexican army, or rather for that porgood and substantial Piano that will last an age, at a tion of it which is under the eye of and devoted fair price, may rely on getting such by addressing the Manufacturers, by mail or otherwise. We have the to Santa Anna. The latter hopes that when the honor of serving and referring to the first families in the time shall arrive for him to don the imperial pur-State. In no case is disappointment suff-rable. The ple, his pretorian guards will be so thoroughly disciplined by their Spanish commanders as easily to put down any attempts of the citizens to interfere with the execution of his projects.

"We give these statements without, of course vouching for their accuracy, though we repeat that they emanate from well-informed, sagacious, WILL attend to the sale of all kinds of Merchandise, and cool observers. If they be founded in truth, we shall doubtless be apprised of the departure of Senor Rafael Ralael, soon after the ratification of the Gadsden treaty. If by any chance that treaty should be rejected, Santa Anna's ambitious aspirations would be cruelly apped in the bud."

> the title of Emperor; but as he has already the right of appointing a successor, and having no male heir, he has designated as that successor indeed, delightful fittle animals," returned her Augustine Iturbide.

Peruvian Guano for Wheat.

Having promised you that I would furnish you with the result of my application of the twenty-2d, 1854, and describing his successful attempt one tuns of guano which I purchased of you last winter, I proceed now to do so, and give you full liberty to quote my experience in favor of that most invaluable manure, to all who are acxious to profit by the experience of others without in-I believe there is no record before of an ascent curring any risk of their own. My object, and frequently done in May and June. The first night ano, is to extend the knowledge of its great value of our ascent we slept at a hot at the line where to any owner of poor soil, like the worn ou: vegetation ceases, and perpetual snow commen- plantations of North Carolina. I applied twenty ces; and at a quarter past five next morning, we tuns of this guano as a top-dressing to a field of At eight o'clock I found myself 100 yards ahead wheat under most unfavorable circumstances. At out of sight of the party altogether, and at eleven appearance of the growing wheat, that my mano'clock I reached the crater. The crater is a vast ager and myself thought it almost a waste of modeep; in some parts perpendicular, in others rest of my crop did not require any manure, I their devotion to the rights of the South. The great masses of projecting rock form bold and resolved to see what would be the effect. I am Advocate makes the following criticism on the reing from every point. The volcano itself has out the top-dressing, seven bushels per acre-it Nebraska bill: long ceased to show any signs of eruption. I be- yielded rather over thirteen bushels, besides secu-

pronouncing it to be the most expeditious renova-J. POLLOCK BURGWYN.

Since writing the above, Mr. B. has been in this effort could get them any higher. I attribute my city, and in conversation with him he stated a fact other best makers' Pianos, at being able to reach the top to my wind; I never which makes this point much stronger. After orfelt want of breath at any time, while the others dering the guano, he left bome, giving his farm blew like porpoises. In our descent from the manager orders to apply it to that particular piece At first the snow was good walking, but as we that the seed was injured-that the land was in a came lower, where the sun makes a sheet of ice very unfit condition, from poverty and drouth, to dreamed of in the acts and writings of the apostles. tensions to the contrary have been so flatteringly guano, that the manager wrote to Mr. B. his opin. far less reason for resentment than Samson for voring to prepare it for certain ratification. Its of success, Mr. B. immediately wrote to him to with their ceaseless brayings against the South | The Eastern question seems to claim some rehappen, though it makes me creep to think of the do as directed. Before the application was com- we must ascribe the opinion, now wide-spread, marks from the general observation on matters of was to step the work at once, and give up the field public mind that there is something more sacred neutrality. Mr. Spence, our Minister to Turkey, part where the guano was first applied, he found great deal more to be dreaded than their dissolu- present existing with Russia, to which he offers it had already infused new vigor into the plants, Ition. THE LATE MURDER .- Joseph Williams, the son of Francis Williams, of this county, who was lately murdered, has been arrested by the Sheriff of Caswell, and after an examination before Justices J. M. Allen and N. M. Lewis, has been commitgive Greely for all his vagaries in behalf of his ted to jail to answer the charge of shooting his father. We learn that the evidence against him is entirely circumstantial, but sufficiently strong to Nicholas I. Emperor of Russia, was born July warrant his commitment for trial before the Superior Court .- Milton Democrat. with an inches of the little providence, to a little an arminol can dense.

From the New Orleans Picayone. Great Movement of the Czar in Rassia. We are indebted to a gentleman of this city for

he perusal of a letter from a very reliable source, dated Paris, March 2d which contains some aswhich Austria and Prussia have pursued towards him in the controversy with Turkey, and has seeceded from his old alliance and compact with them as to Poland and Hungary. He has issued a ultase Prussia and Austra will be compelled to relinquish their share of the dismembered kingdom, which, we certainly a bold and masterly stroke. It will comforce them into an isolated and impracticable attitude of a third party in a duello. It is impossible for france or England to give their aid, smy pathy or countenance to Prussia and Austria in an attempt to hold on to the Grand Duchies, which they so nefariously seized and tore from Poland. The two former nations are too strongly committed in favor of Poland to be drawn into such a scheme. The people of those two counties would rise en masse and abandon the Turks and their cause in resisting any such movement, and Louis weight of which oppressed him more than any other obligation he had ever felt, of that Polish not onelity. Thus the Czar must disgust the English and French with their position; at the same time he secures himself in his weakest point. He quiets and reconciles the Poles, delivering the protection of their rights, and the security of their nationality into their rights, and the security of their nationality into their own hands. Thus he is able to draw off his vast armies to maintain his position and advance his claims below the Danube. At he same time, he enfeebles Austria by withdraw ing all protection of her from claims to Hungary, and rendering it necessary that the Austrian army should be concentrated on its Northern frontier, to protect its Polish possessions.

Austria must give up the one or the other .-Hungary with her ten millions of disaffected and warlike inhabitants, will need no better opportunity of striking another blow for her independence, than when Austria is thus engaged or embarrassed, and the Czar stands aloof an indifferent spectator-nay more, a sympathizer and encourager. Should this state of affairs follow, the Czar of Russia, instead of being the chief reliance of absolutism in Europe, will prove the most efficient agent of liberalism and nationality. Those who were in such a haste to denounce Russia, and take sides with England and France, will thus find themselves in a very peculiar and embarrassing position. We shall, however, be confirmed in our original and unchanging position, that the policy of Russin better deserves the sympathy and support of our people, and that her alliance is more to be desired by our nation, than that of the other powers of Europe.

The following is the extract from the letter which states the facts on which we have commen-

(TRANSLATION.)

Paris, March 2 .- I have just time to announce to you news, the consequence of which may be incalculable. The re-establishment of the kingdom of Poland is decreed by a ukase of the Czar, the notification of which has just been made to Prussia and Austria, in answer to the abandonment those two powers have evinced towards him. The Emperor's third son, Nicholas, will be King of Poland, In breaking with the two despoiling powers, he tells them, " As to the parts of Poland you upfairly possess, whether you retain them is a question that regards yourselves, and for which you will be responcible," We may, therefore, expect the speedy re-union of the Grand Duchy of Posen and Gallicia without the influence or action of eith. er Poles or Russians.

In a short time you will see Hungary in arms, raising up again the prostrate standard of thir nationality without the protection of Russia. The conclusion of all this is, that France and England, who ought to have taken in hand the cause of these two nationalities, have denied their political law, and deserted their principles in submitting to the alliance of Austria, and that henceforth the struggle can no longer be doubtful. The Emperor of Russia has thus made a great

political move, and on the eve of the great battle he has placed the stake on his side.

SICE HEADACHE .- The following cure for the sick headache was furnished to the Boston Medical Journal by Dr. N. S. Folsom, of Portsmouth, New

"Take any number of drops of the Croton oil, mix them with flour amd molusses, and make as many pills as drops of the oil used. When the patient begins to feel the sick headache coming on, onehalf of a pill is to be taken every hour in molasses. cretions; 2d. By counteracting the anti-peristalacting as a counter-irritant to the brain."

There is a tree in South America pared the murure, the milk of which, (says Lisat. Hernden, in his report of the "Exploration of the Valley of the Amazon,") is reported to possess extraordinary virtue in the ente of mercuralized patients.— The case of a young man is mentioned, who had come to Para to linger out what was left in the enjoyment of a tropical climate. A few doses of the murure sent him home a well man. Attempts have been made to bring some of this milk home, but without success, for it will not keep.

A NEW MOVEMENT AMONG THE GERMANS .-The German emigrant in Ohio and the other Northwestern States, are uniting in a movement to form a General Union or the cultivation of music and for physical and mental culture. A convention to carry out the object assembled at Cincipati last week.
